Feedback Obtained
<p>The university is using the Students' feedback as a base to make improvements in the existing system after reviewing and analyzing it carefully. The student's feedback questionnaire is attributing quantitative and qualitative answers, focused on the quality of the in-course content, pedagogy, learning material, views about theory/practical courses, and services extended to them by the university. The feedback is analysed to improve the academic and administrative system. The university organises Parents Meet and interacts with them to apprise them about the recent developments in the university. Their suggestions are also considered. The teachers are made part of various bodies of the university to ensure their total participation. Their suggestions are considered by the top management. The feedback from the Alumni helps in providing flexibility in the curriculum to develop skills in multidisciplinary fields. Student's needs are not only taken care of but customized the pedagogy for a better understanding of the subject. The flexible curriculum focuses greatly on skill development. Parent feedback was also obtained from during PTMs . Some of the parameters accommodated in the parent's feedback include quality of teaching, students' discipline, lab facilities, IT services, sports, cultural and co-curricular activities, examination system, cross-cutting issues, start-ups, etc.</p>

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The objectives of the BU SMS include: • To help undergraduate fresh students understand the challenges and opportunities present in the Institute and develop a smooth transition to campus life. • To counsel academically weak undergraduate first year students and to play an important role in helping troubled students cope with academic, extra-academic and personal problems. • To provide positive role models to first year undergraduate students in the institute. • To proactively try to identify problems of the general student populace and to bring them to the notice of the concerned authorities. • Ensuring regularity and punctuality of students through counseling sessions. The SMS attempts to track these objectives by carefully identifying those who can act as an anchor and guide for a fresh first year student or an academically weak student to bank upon. Student Mentors will be selected to play this role and are given the authority to pursue the mission of this programme. The implementation of the SMP and its details are covered subsequently in this document. Programme implementation will be in following phases: Phase I: Selecting mentors Phase II: Allotment of mentors to the faculty. Phase III: Interaction of first year students with the mentors and identifying strengths and weaknesses of the mentees. Forming whatsapp group, if possible, to keep contact among the group. Phase IV: Periodic meeting of the mentees with the mentors and remedial training of the learners, training students to take up higher skills. Phase V: Obtaining feedback from the first year students at the end of the session. Role of Faculty Mentor (FM)

- Faculty Mentor shall meet respective batches at least twice in a year.
- Personal counseling is the main role played by FM.
- FM shall certainly meet students of their batches in the first meeting and discuss general matters and make them at ease.
- Subsequently, they shall meet students after the 1st and 2nd semester examinations and discuss their performance and comfort level.
- FM shall counsel the students with difficulty in adjusting to the environment. The responsibility of each mentor extends to the entire three years for the batch.

Role of the Mentor (SM) Each Institute Mentor is assigned a group of 25-30 students, who would henceforth become his/her mentees. Under normal circumstances, it is the primary duty of the Mentor to guide the group of students assigned to him/her through their first year in the institute.

- The Mentor should ensure to the best of his/her ability that the freshmen (especially his/her mentees) are able to adjust comfortably to college life.
- The student mentor should establish a close rapport with his mentees.
- The Mentor should see to it that he/she meets them at certain critical junctures of the first year such as the first few weeks of the semester, well before end semester exams and at the time of results.
- The Mentor must act on any complaint of misbehavior by a senior. The institute has strict policies against ragging.

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Bundelkhand University functions in a well-structured and defined manner to ensure participative management at all levels of decision making. All the Post Graduate Departments, Institutes and affiliated Colleges function under the control of the Vice Chancellor of the University. Powers relating to running the colleges, have been delegated to the Principal concerned. Principals have different committees to suggest him/her as far as administering the college. Likewise, Deans of Faculty, Heads and Coordinators of the Departments have been delegated the powers by the Vice Chancellor to smoothly run their respective Department. Deans of Faculties, Dean Academic Research and Dean Students Welfare have the powers and use to advice the Vice Chancellor on core issues. The Uttar Pradesh Universities Act 1973 is amended as per the changing trends. The Act designates the "Statutory Committees" of the University, to suggest the measures to the Vice Chancellor to run the University. Some of them are Executive Council Academic Council Board Finance Committee Library Committee Admission Committee Examination Committee Building Committee Purchase Committee Discipline Committee Sports Committee. With above mentioned Statutory Committees following are the non-statutory committees: 01. IQAC 02. Grievance Cell 03. Gender Sensitisation Cell 04. Anti Ragging Committee 05. NSS committee The Constitution of all these Statutory and non statutory Committees consists of members from all the various segment/state holders clearly indicates the de centralised and participative work culture incorporated within the ambit of Patna university Act and statues. Academic Administration Academic decisions pertaining to introduction, revision and reformulation of courses and syllabi are taken through „Academic Council? after obtaining inputs from concerned faculties and departments' Board of Studies. The composition of the Academic Council reflects the participative nature of University administration. At the faculty and department levels, there are bodies like Departmental Council, Board of Studies, Departmental Research Committee, etc., which function in a coordinated manner to take decisions with respect to academic and research related issues. The syllabus is revised as per the latest trends and requirements. The syllabi framed by the Departmental Councils and Board of Studies is discussed and approved by the Academic Council, followed by approval from the Chancellors office.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practices II
Title of the Practice: Plantation Programme
Objectives of the Practice As is evident and observed that due to rapid industrialization and urbanization, the environment and climate is changing itself very tremendously. Therefore it is resulting into damage to the ozone layer and decrease in oxygen level. To fulfill its responsibility towards nature as well as society, the University has initiated plantation rigorously on days of global and national importance. The university is converting into an oasis for the passer byes and visitors with its lush green parks, grounds, lawns, botanical gardens, herbal garden and huge organic farm. Plantation is carried out by all the departments of the University on the occasion of following days of global and national importance: • Republic Day • Earth Day • Environment Day • Independence Day • Teachers' day
 The academic and residential campus is full of fruit trees like mangoe, jamun, guava, jackfruit, orange etc apart from the trees of medicinal importance and oxygen value like • Indian Mahogany (Swietenia Mahogany) ... • Ashoka Tree (Saraca Asoca) ... • Gulmohar Tree (Delonix Regia) ... • Curry Tree (Murraya Koenigii) ... • Peepal Tree (Ficus Religiosa) ... • Banyan Tree (Ficus Benghalensis) ... • Sal Tree (Shorea Robusta) ... • Arjuna Tree (Terminalia Arjuna) • Palm
 The Context The very noble objective of "Plantation programme is to save protect the environment by plantation" to : ? Rise up the level of oxygen ? Inculcate the love for nature amongst the students ? To make the

students aware of the value of trees plants. ? To orient the students towards productive hobbies ? To maintain the environmental cycle for up-gradation of the environment. The Practice It is very important to plant more and more trees, herbs and climbers because these are the carriers of rain and cloud. Only the nature has capacity to turn up the balance of nature to produce more and more oxygen, and it is possible when our surroundings are full of trees and plants. Such type of programme is possible only when our new generation become more more sincere and active towards plantation programme. Such practice ensures the balance of nature and natural life. So, we should plant more more trees and protect them for our new generation. Evidence of Success Our efforts of plantation work motivated the students and inspired them to get themselves involved in plantation and support the cause of ecological balance and environmental protection. More than 70 student participated in the plantation drive university faculties and administration. Till date more than 50,000 plants have been planted by the students and faculty members in the university residential and academic campus. With the cumulative efforts of the students, faculty members and university administration, the plantation has resulted into a scenic campus with beautiful plants, lawns and huge gardens with multiple flora and fauna. Best Practice II Students Grooming Program includes following three major activities. Mockdrill for Corporate Mockdrills are organised for final year students to prepare them for industries and aware them from corporate culture. This includes: • Time Management, Planning and Prioritization • Attitude, Verbal and Nonverbal Skills • Effective Communication Skills • Group Discussion and Team Building Skills • Etiquette and Interview Skills English Proficiency Test English is the dominant professional and business language and wide range of technological literature is available in it. So it is necessary to provide the support to the large number of engineering students who are coming with vernacular language. Every year English professions test is take for the students and detail diagnosis is prepared for improvement. Students are guided for reading, listing speaking and writing skills. Aptitude test On line aptitude test of final year students is conducted at starting of 7th semester. After assessment diagnosis is prepared for various sections like: logical reasoning, mathematics and linguistics. This provides the idea about how to crack the non technical test in recruitment process. Group discussion tournament Many skills like leadership, critical thinking, listening skills, confidence, capability to co-ordinate, Knowledge potential, Body language, presence of mind, reasoning ability etc are associated with GD. And this is the reason why GD is included in recruitment process by many companies. A session on How to do Group discussion is organized which is followed by Group discussion tournament.
